

Exercise 2 - Location Based Services

Mobile Business II (SS 2016)

Chair of Mobile Business and Multilateral Security
Johann Wolfgang Goethe-Universität Frankfurt a. M.

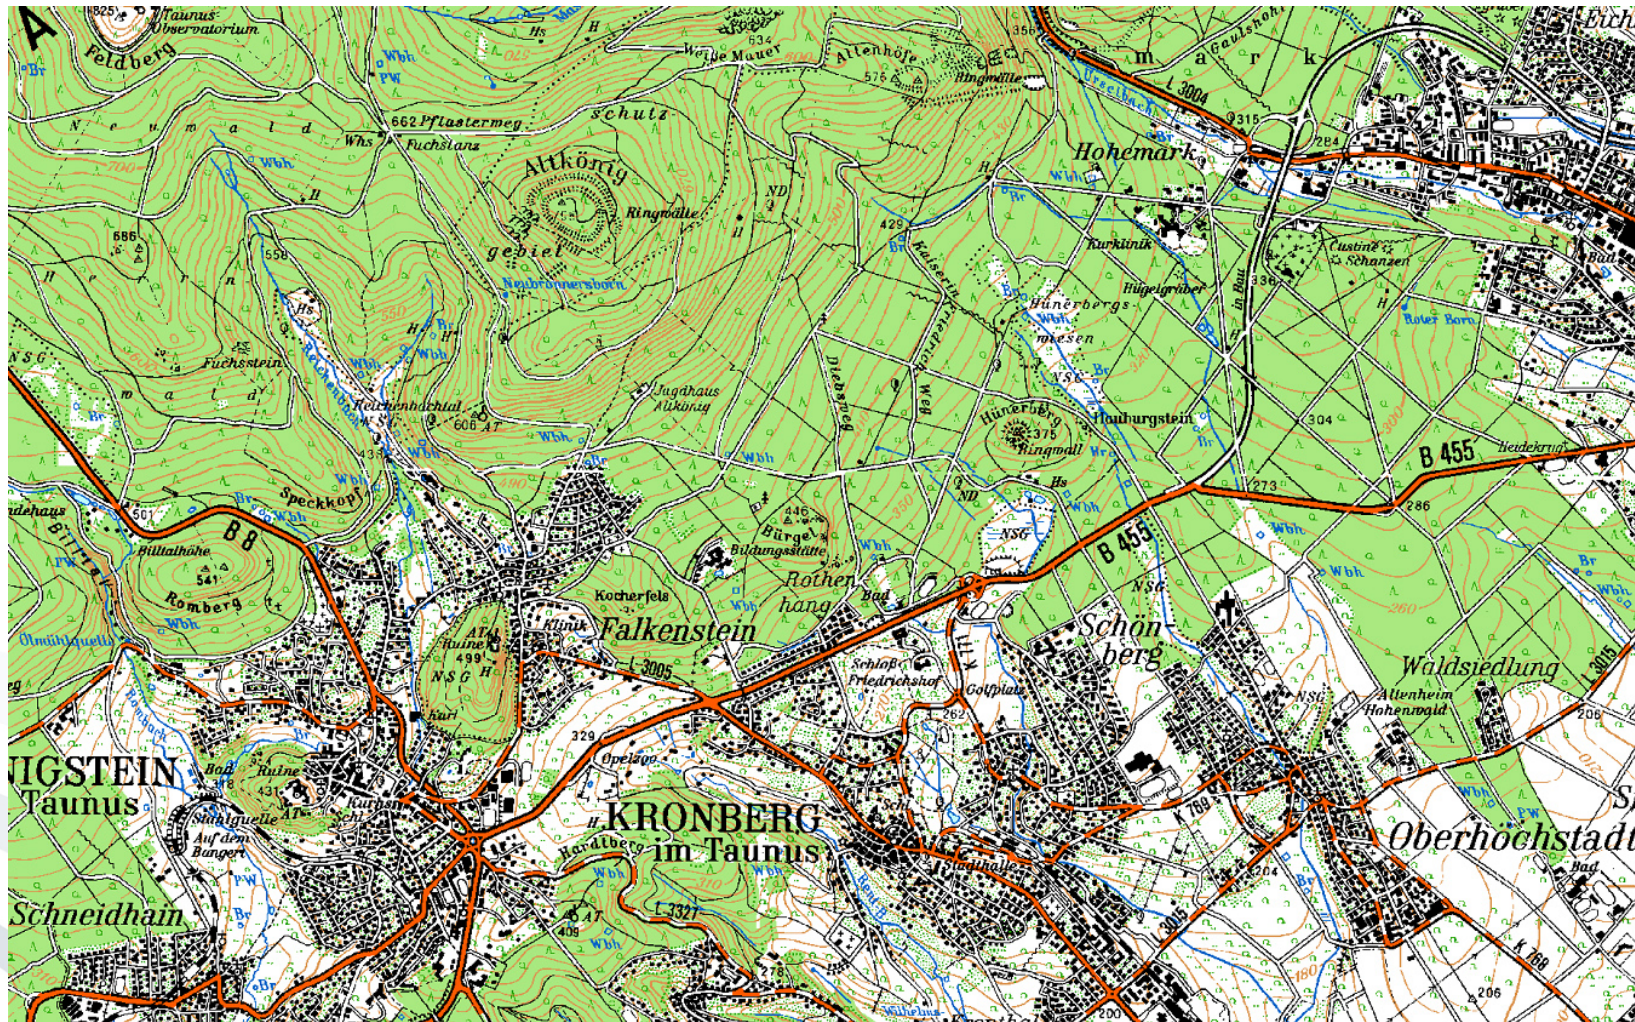

- Your participation 😊
- Maps and their usage
- Mobile Communities and LBS
- Travel services
- Misc

Look at the following maps. Think about the questions:

- **Purpose:** What is the purpose the map / what can it be used for?
- **Orientation usefulness:** Does this map help you to ride a bicycle from Königstein to Kronberg?
- **Decision support:** Will this map help you to evaluate whether a particular street is a nice place to live in?

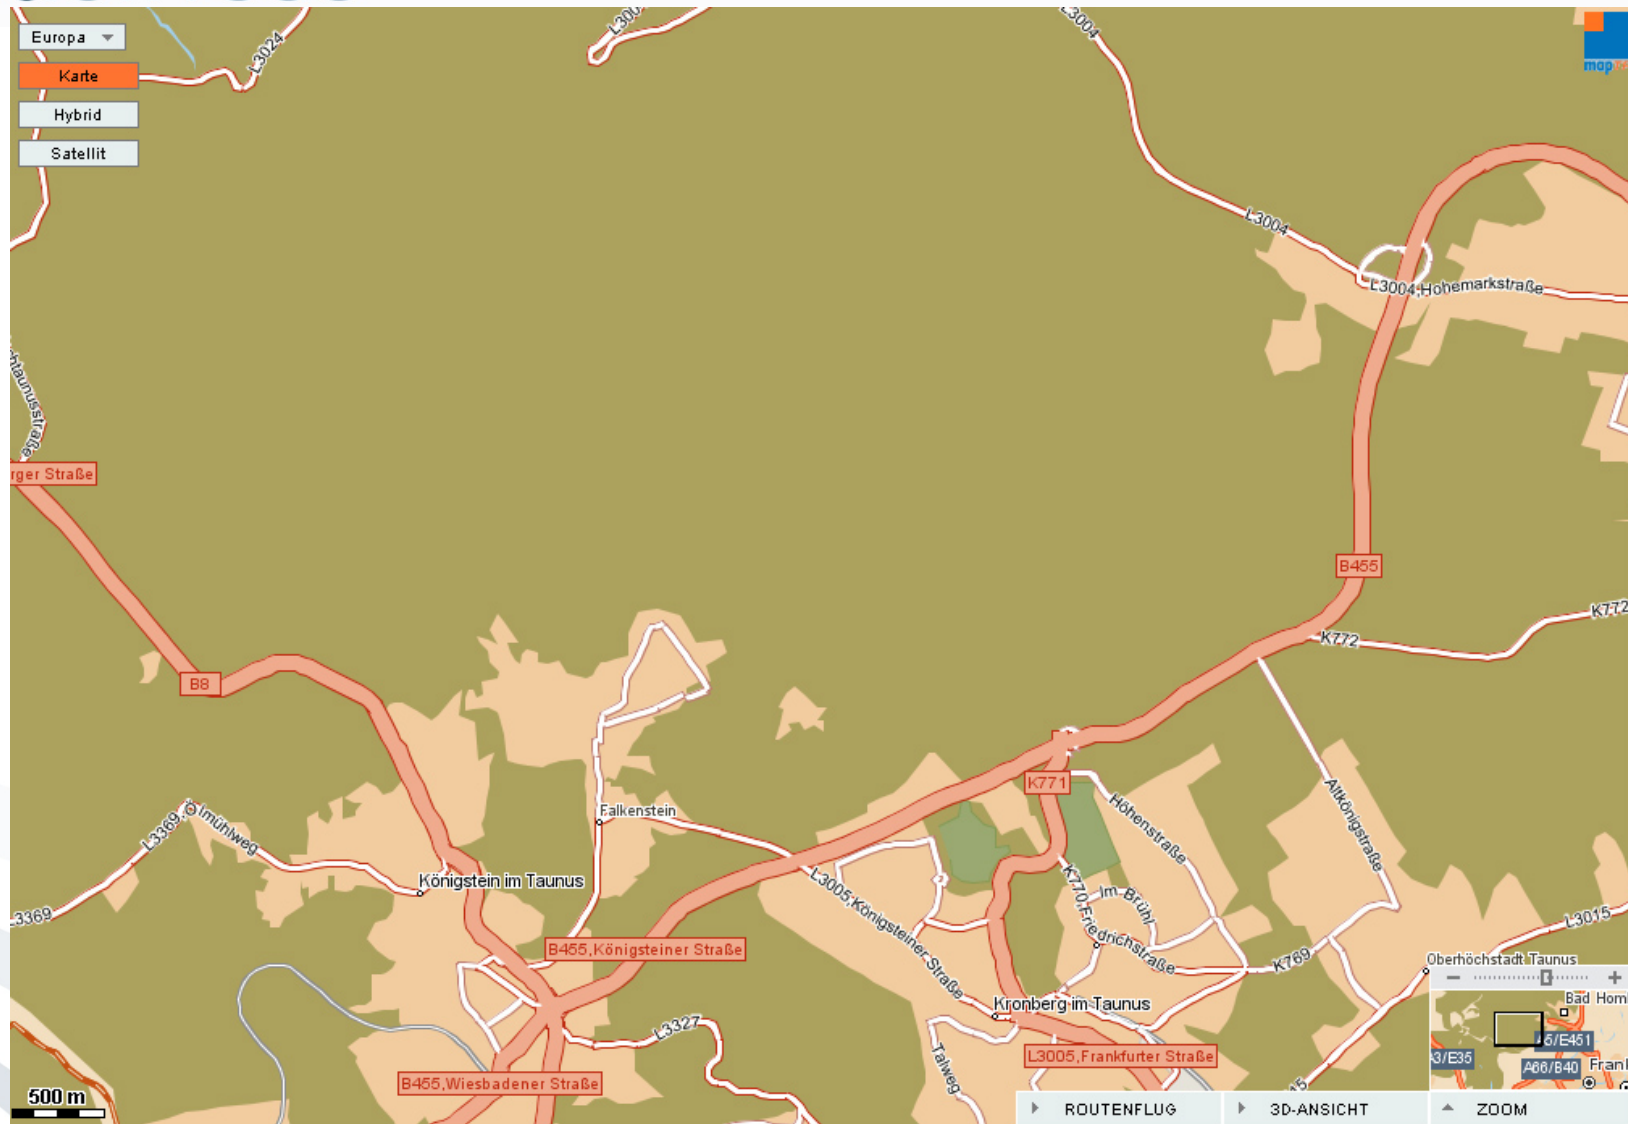

Map 1: Topological map

Map 1: Topological map (2)

- **What is the purpose this map can be used for?**
 - Get an overview of the terrain
 - Height differences
 - Geographical details
 - The area where a certain town is located
- **Does this map help you to ride a bicycle from Königstein to Kronberg?**
 - Yes, since all the roads are shown.
- **Will this map help you to evaluate whether a particular street is a nice place to live in?**
 - One can only partly see what in the surrounding area is, but no precise details.

Map 2: Street-map view

Map 2: Street-map view (2)

- **What is the purpose this map can be used for?**
 - Car navigation
 - The most important streets and distances are shown.
- **Does this map help you to ride a bicycle from Königstein to Kronberg?**
 - Only partly. The bigger roads are shown, but smaller connecting ways, which are available on a bike are not.
- **Will this map help you to evaluate whether a particular street is a nice place to live in?**
 - No, details missing, except for travelling (connecting) roads to the towns

Map 3: Satellite view

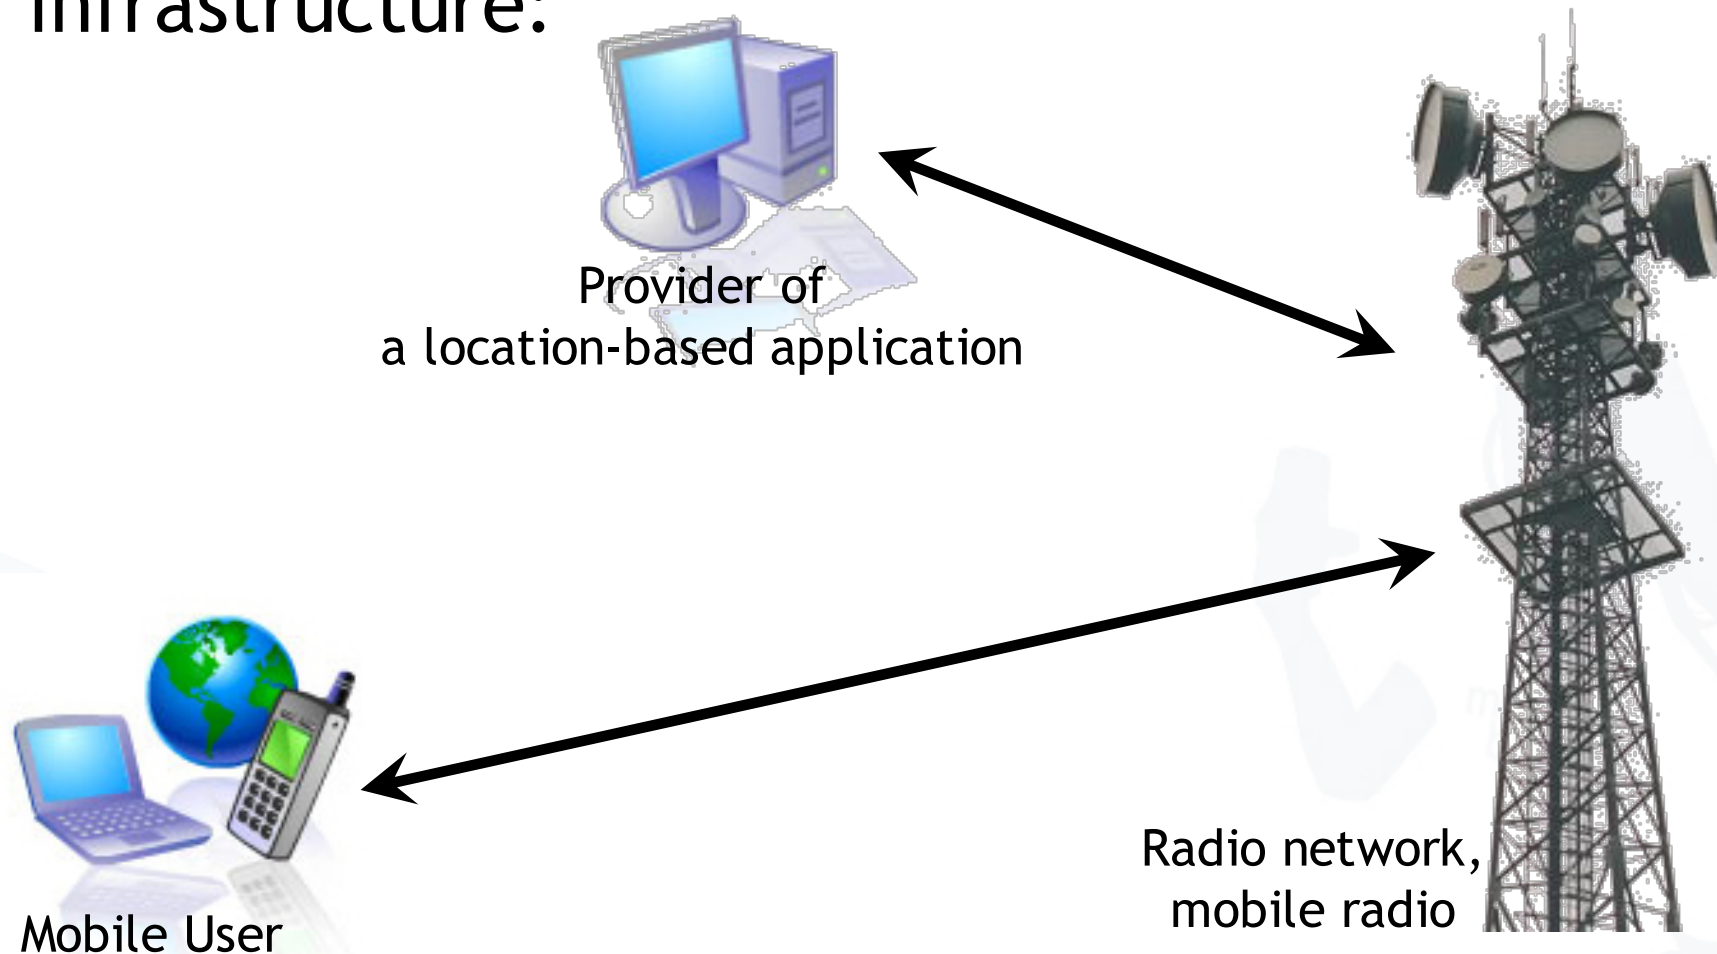

Map 3: Satellite view (2)

- **What is the purpose this map can be used for?**
 - Satellite picture, more precise details about the area can be found.
- **Does this map help you to ride a bicycle from Königstein to Kronberg?**
 - No, the roads are not shown. The streets can only partly be seen, but in the mountains they are hidden from the trees.
- **Will this map help you to evaluate whether a particular street is a nice place to live in?**
 - Yes, depending on the possibility to zoom in and out, precise details can be recognized.

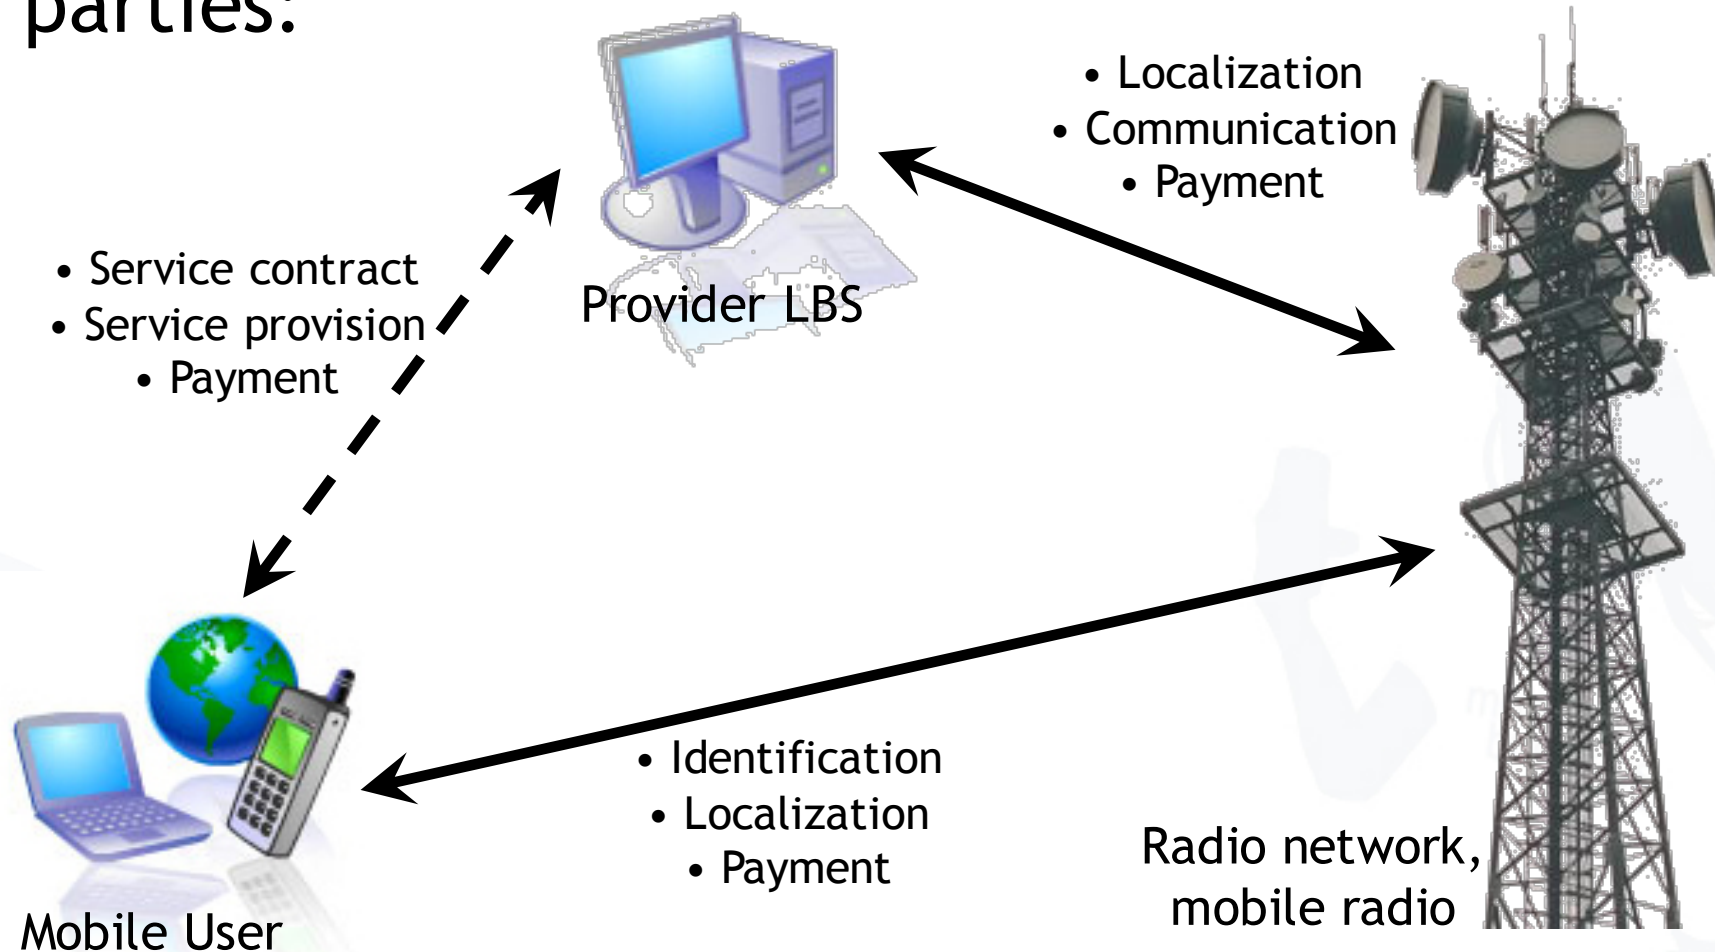

- Biking
 - Bikemap.net for biking
 - Google Maps brings biking directions in certain countries
- Any other examples that you use?

INFRASTRUCTURE FOR LBS

Usually, we speak of variants of the following infrastructure:

LBS require many relationships among involved parties:

If you are planning to provide a LBS,

**WHICH FACTORS ARE RELEVANT FOR YOU AS
A SERVICE PROVIDER IN ORDER TO CHOOSE A
POSITIONING METHOD FOR YOUR SERVICE?**

Elements of a Business Model

(1) Value Proposition

- How does the organisation benefit customers and partners?
- What are the advantages of players that are in relationship with the organisation?

(2) Architecture of added value

- How is the manufacturing of the output presented?
- In which configuration is the output produced?

(3) Revenue Model

- Which revenues will be generated from which sources?
- What are possible types and forms of revenue?

Revenue models

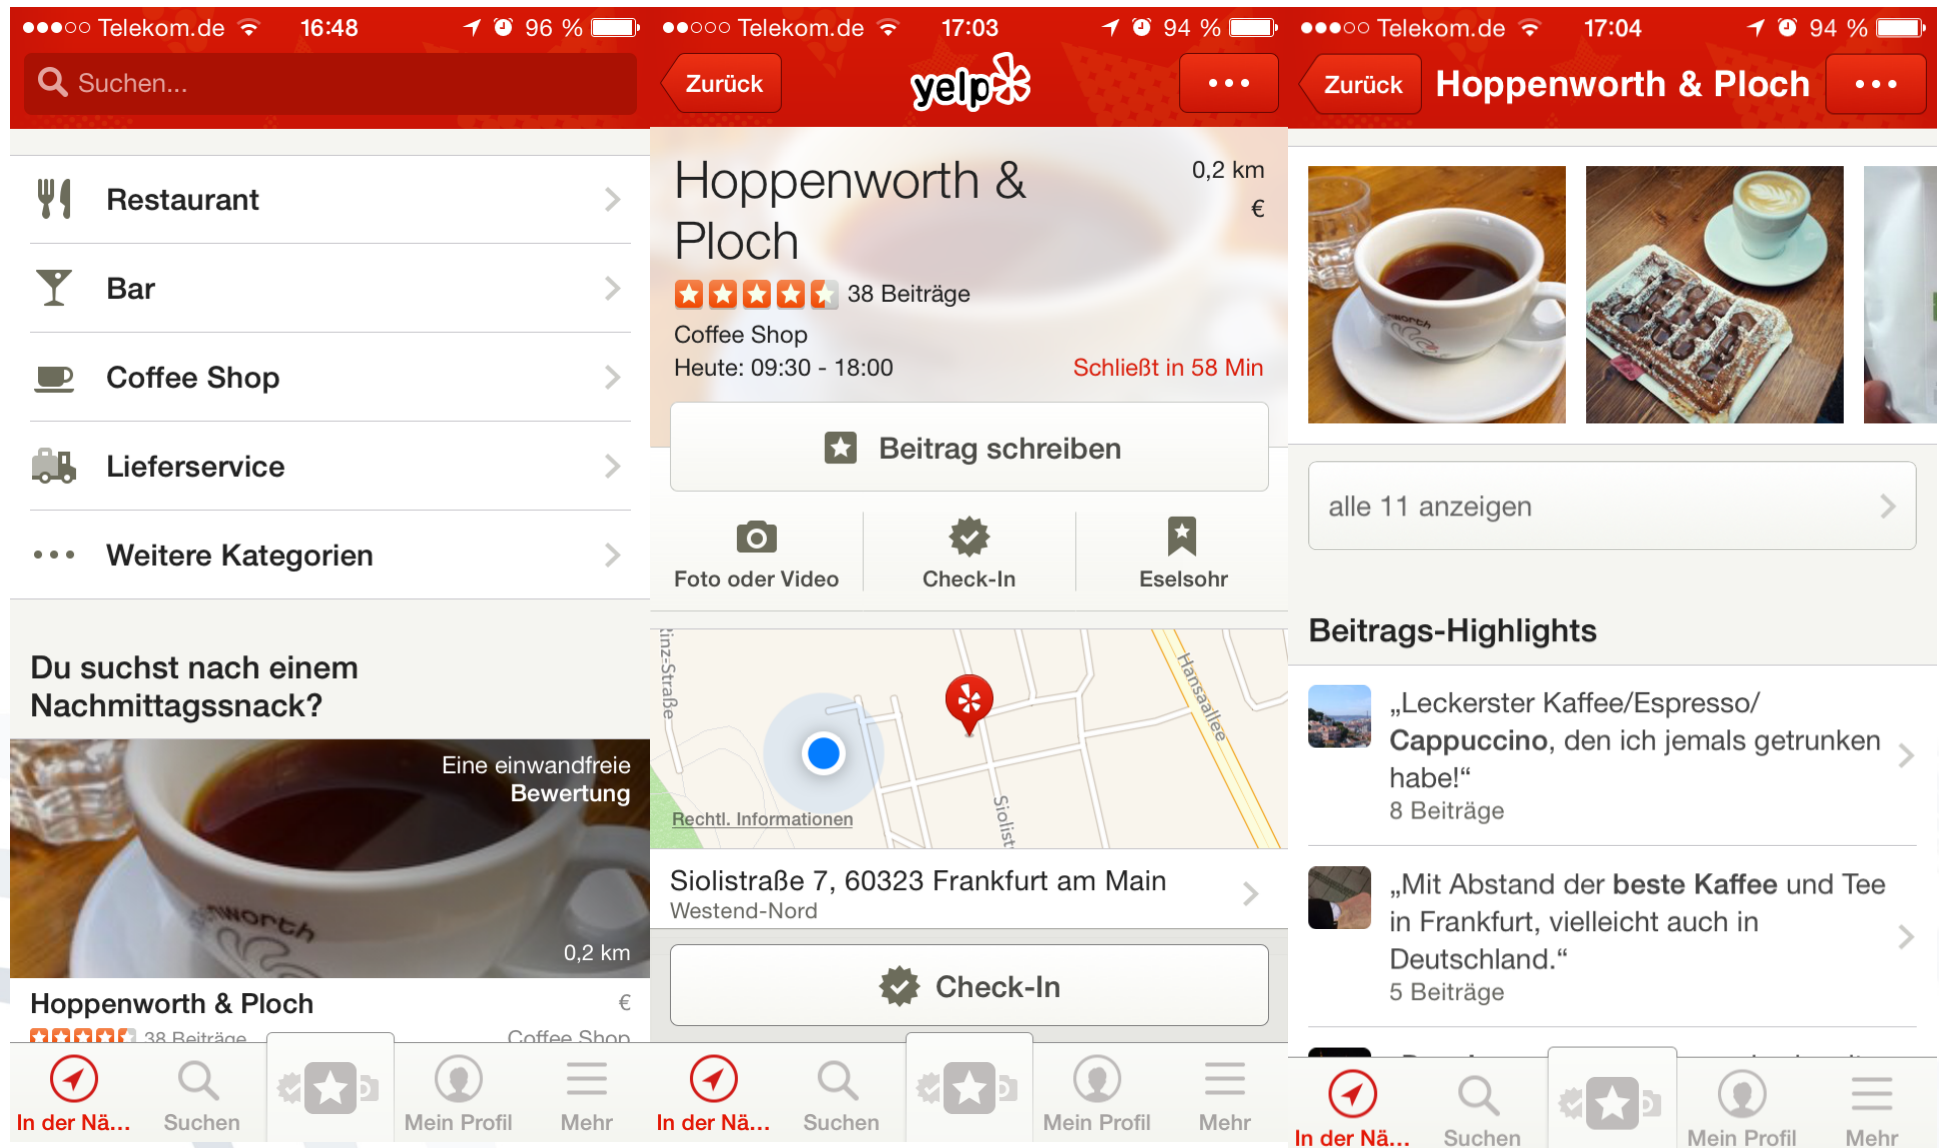

Subscription	Single transaction	Advertisements	Miscellaneous
--------------	--------------------	----------------	---------------

Revenue types

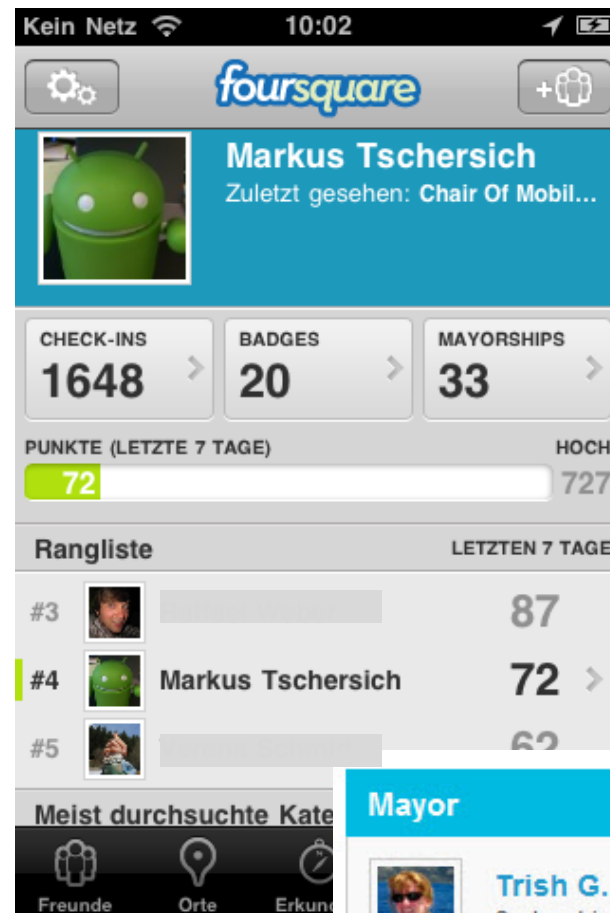

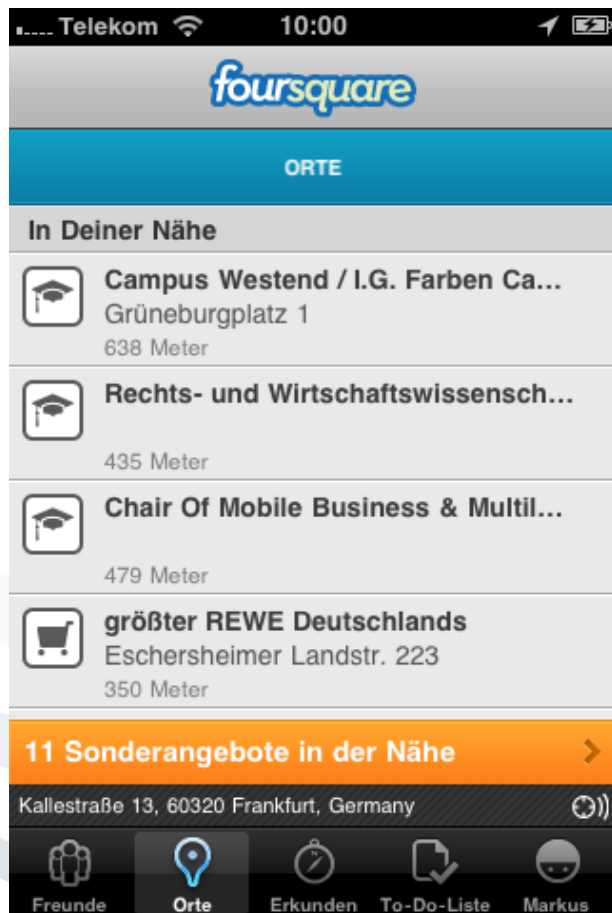

Direct		Indirect	
Utilisation dependent	Utilisation independent	Via enterprise	Via state
Single transaction depending on quantity or period of use	One-time	e.g. advertisement, commission	Subsidisation
	regular e.g. subscription, (broadcast) fee		

- Examples
- Type of services
- Advantages
- Technology requirements for the users

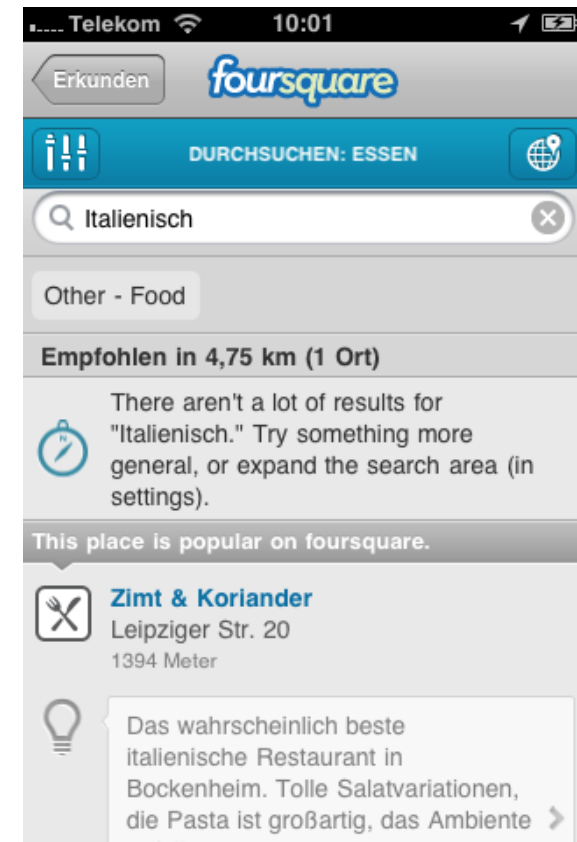

Example 1: yelp

Example 2 - Foursquare - Check-In

Example 2 - Foursquare Find places around you

Example 2 - Foursquare Gaming and Honor

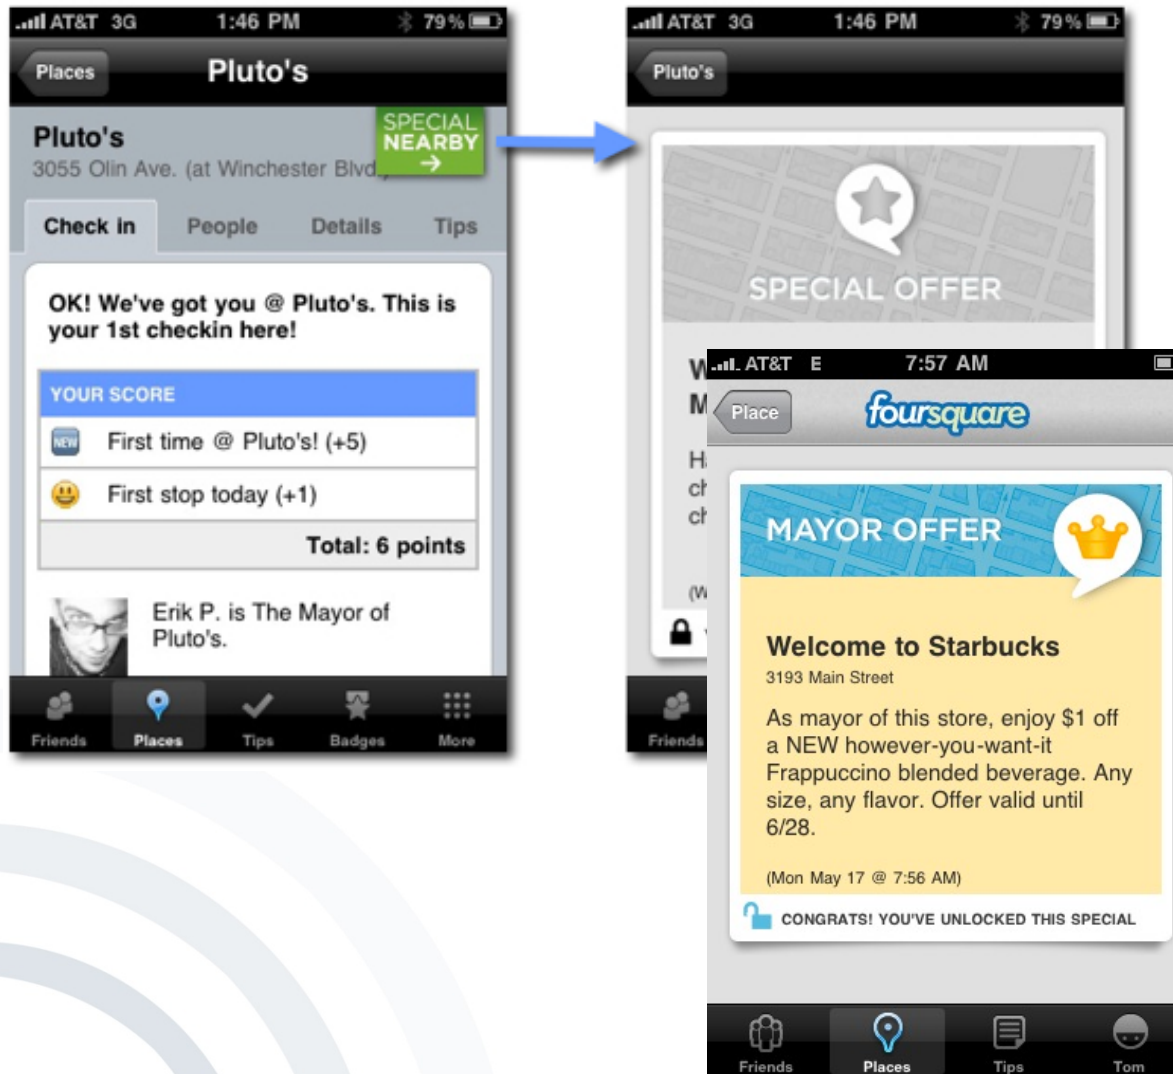

General Badges

Partner Badges

Example 2 - Foursquare Special Offers

Mayor Special

Time Breakdown

When visitors are checking in

If you are planning to provide a LBS,

**WHICH FACTORS ARE RELEVANT FOR YOU AS
A SERVICE PROVIDER IN ORDER TO CHOOSE A
POSITIONING METHOD FOR YOUR SERVICE?**

Exercise III: Travel applications: Touch&Travel

https://www.youtube.com/watch?v=iF78QdCn_xQ

Exercise III: Travel applications: Touch&Travel (2)

- Additional info:
 - App installation on the phone
 - Support of the telecom operators
- Location can be determined by:
 - Phone
 - Barcode scan at the station
 - Contact-point number input
 - Reading the NFC tag at the station
- Check-in, check-out!
- Pay in the end of the month!

Now:

**WHICH FACTORS ARE RELEVANT FOR YOU AS
A SERVICE PROVIDER IN ORDER TO CHOOSE A
POSITIONING METHOD FOR YOUR SERVICE?**

III: Travel applications: Touch&Travel (2)

- What are the advantages for the travellers?
- What are the requirements of the travellers?
- What are the advantages for D-Bahn?
- What is the role of the network operators?

III: Travel applications: Touch&Travel (3)

- What are the advantages for the travellers?
 - Less stressful travel
 - Ticket on the spot
 - Smarter pricing - daily vs. one-way tickets
 - Travel now - pay later
 - Electronic receipt of the travel
- What are the requirements for the travellers?
 - Smartphone with location capability and/or camera (QR code)
 - Registration (bank, address)
 - „Certain“ mobile operator
 - Mobile data (internet connectivity)

III: Travel applications: Touch&Travel (4)

- What are the advantages for DBahn?
 - „Mobile and distributed“ terminals
 - Less expenses for maintaining/installing ticket machines
 - Less expenses - less personnel
 - Potential additional customer data and travel profiles
- For discussion:
 - The role of the network operators
 - Setting up the database of the stations/stops
 - Determining the location of the phone
 - (Any other) parties involved!?

- Other uses:
 - Outdoor activities (jogging)
 - Advertisements
 - Meeting friends (sharing location on Whatsapp, for instance)
- Privacy concerns: who should own the location data?
- Your other ideas, experiences in general.
